

NUTRiFii
KIDS™

PRODUCT OVERVIEW

NUTRiFi KiDS™

WELL-ROUNDED NUTRITION

Nutrifi Kids™ Chewable Multivitamin is an all-encompassing daily supplement that's meticulously formulated to support the healthy development of children and adolescents. This essential chewable tablet contains only high-quality vitamins, minerals, antioxidants, phytonutrients and powerful plant extracts that are critical for a child's development, brain function, intestinal digestion, physical performance, emotional balance and healthy immune system. And with sweet mango and citrus flavors, even the pickiest of eaters will love it!

SUPPORT

COMPREHENSIVE

Unlike many children's vitamins on the market today, Nutrifii Kids is packed with high doses of immune-supporting nutrients including Vitamins C & D. It's also the only children's vitamin formulated with a complete Vitamin B Complex - thiamine (B1), riboflavin (B2), niacin (B3), Choline (B4), pantothenic acid (B5), pyridoxine (B6), Biotin (B7), Inositol (B8), Folate (B9) and the cobalamins (B12). This complex works to help the brain transmit information and regulate mood, metabolism and energy levels.

SUPPORTIVE

Each serving of this chewable multivitamin contains an array of vitamins, minerals, antioxidants, phytonutrients, 14 different fruits and veggies, plus 4 powerful plant extracts. These tiny tablets are also loaded with natural digestive enzymes to support intestines, increase the nutrient absorption rate and improve digestion problems.

SUGAR
FREE

INNOVATIVE AND EFFECTIVE

Gummy vitamins often contain only low doses of vitamins and minerals. They're also packed with sugar, hindering the body's ability to absorb nutrients. To maximize the retention of high-quality nutrients, we've adopted unique micro-compression tablet processing technology that utilizes the most effective delivery method.

THE BENEFITS

- Supports healthy immune function
- Supports emotional wellness
- Provides brain support
- Aids digestion
- Strengthens immunity
- Delicious, kid-approved taste

ALL OF THE GOOD, NONE OF THE BAD

- No added sugar
- No artificial colors, flavors or sweeteners
- No lactose or dairy
- No GMOs
- No fructose
- No gluten
- No gelatin
- No binders or fillers
- No added thin film
- No maltodextrin
- No carrageenan

Protective Immune Support

Quercetin, Bromelain, Hesperidin, Vitamin C, Vitamin D3, Citrus Bioflavonoids, Bilberry Fruit Powder.

Natural Phytonutrients

Inositol, Quercetin, Bromelain, Citrus Bioflavonoids, Bilberry Fruit Powder.

FREQUENTLY ASKED QUESTIONS

What is the recommended dosage of Nutrifii Kids™?

For children ages 2 to 3 years old, chew one tablet daily. For children, 4 years and older, chew two tablets daily.

Can children take more than the recommended dosage?

The maximum dosage is one tablet for children ages 2 to 3 years old and two tablets for children 4 years and older.

Does my child need to eat before taking Nutrifii Kids?

It's recommended to take each dose with food or at mealtime.

Do the tablets have to be chewed, or can they be swallowed like a pill or dissolved into liquid?

Our chewable tablets were not formulated to swallow whole. We specifically developed the hardness of the tablet to allow it to be chewed. If necessary, we recommend cutting the tablet into smaller, bite-sized pieces.

How many tablets are in each bottle?

There are 56 chewable tablets per bottle.

How do I store Nutrifii Kids?

Keep the bottle in a cool, dry place out of direct sunlight.

Is the bottle for Nutrifii Kids childproof?

Yes! Each cap has been effectively designed to prevent your kids from helping themselves to seconds (or thirds).

Does Nutrifii Kids contain whole foods?

Yes! Our Super Plant Blend includes 18 different fruits and veggies, and our formula does not have any artificial colors, flavors or sweeteners. It's also gluten-free, sugar-free and lactose-free.

What are the various benefits of the vitamins included in Nutrifii Kids?

Vitamin A

Supports healthy eyes, skin, teeth and bones

Complete Vitamin B Complex

Helps energy production, immune function and iron absorption

Vitamin C

Helps support the body's immune system

Vitamin D3

Essential for strong teeth and bones, healthy immunity and hormone development

Vitamin E

Antioxidants provide protection from free radicals

Vitamin K

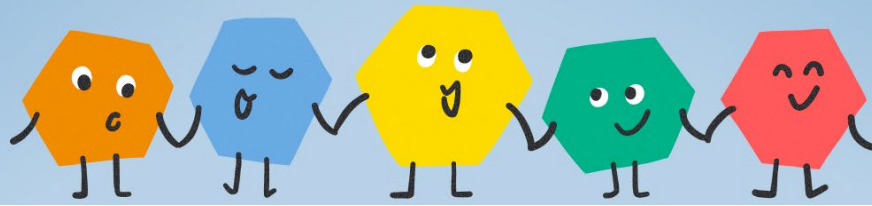

Key to unlocking the door that sends nutrients from your blood to your bones

What is a methylated vitamin?

Nutrifii Kids contains methylated forms of B12 and Folate. Methylation is a simple biochemical process that positively impacts many other biochemical reactions in the body that regulate the cardiovascular, neurological, reproductive and detoxification systems. Methylated vitamins help the body fortify its functions without having to methylate on its own.

My children love gummy vitamins. What makes chewable tablets more effective?

Most children's vitamins are packed with sugar, which interferes with vitamin absorption in the body. When your child consumes a store-bought, sugar-filled gummy vitamin, they are not only receiving an extremely ineffective and low dose of vitamins and minerals, but they are also canceling out any benefits that the supplement may provide due to the sugar content.

FREQUENTLY ASKED QUESTIONS

Why are there specks in the tablet?

The different-colored specks visible in the tablet are some of the ingredients in the formula, including vitamins, minerals, and super plant ingredients.

Are there any fillers or gelatin in Nutrifii Kids™?

Our formula does not contain fillers, gelatin, magnesium stearate, calcium stearate or vegetable stearate, which can cause negative effects on bowel movement, cholesterol and arteries. We adopted unique micro-compression tablet-processing technology that utilizes the most effective delivery method without the need for fillers or binders.

Are there any sugars or sweeteners in Nutrifii Kids?

Instead of using traditional sugar, our formula uses Stevia, Xylitol and Sorbitol, which are all natural, contain less calories and do not spike blood sugar or insulin.

Is there any iron in Nutrifii Kids?

Iron can be toxic and potentially dangerous when consumed in excessive quantities. It can also cause digestion issues. Since most children receive enough iron through their daily diet, we have not included it in the formula.

Does my child need to take a multivitamin?

Children's eating habits are continuously changing, and sometimes they don't consume as many nutrients as their growing bodies need. That's why it can be beneficial to support their diet with a daily multivitamin.

Can my child take Nutrifii Kids if they are allergic to one of the ingredients or already taking medication?

Always consult a healthcare physician before beginning any new dietary supplement if your child has food allergies or is taking medication.

Can my child take Nutrifii Kids if they have a medical condition?

Always consult a healthcare physician before beginning any new dietary supplement if your child has a medical condition.

Are Nutrifii Kids safe for adults to take?

Yes! However, this formula was specifically formulated to meet the nutritional needs of children, which vary greatly from that of adults. We recommend that adults take Nutrifii Optimal-M and Optimal-V.

ALL OF THE GOOD, NONE OF THE BAD
